

Period of Graduate Activities Finds Its Culmination in Convocation Ball Tomorrow Night in Currie Gymnasium

Golf, Tennis, Baseball Matches Featured among Sports Events

Tea Held this Afternoon For Graduating Co-eds

This year as in the past, an elaborate Convocation week program has been arranged. Including both sports and social activities, it extends over the period from Sunday last until tomorrow evening, when the whole will culminate with the Ball tomorrow night.

The Convocation Ball this year as formerly, will be held in the Sir Arthur Currie Memorial Gymnasium-Armoury. The dancing will commence at 10 o'clock, and continue till three the following morning; music will be supplied by Blake Sewell and his Orchestra. Following the precedent set at other dances this year, red and white carnations will be sold on the floor, and these are expected to replace corsages.

Tickets On Sale.

The tickets, which sell at four dollars and a half, are obtainable from Mr. Marsh, in the Medical Building, Fred Barton, Bill Gentlemen, or, at the Union, from Mr. Fletcher's office.

Table reservations may be placed with Marion Savage, Fitzroy 4812, or at the Union. Supper will be served at twelve-thirty.

Sports Events

At eleven o'clock this morning a golf tournament, a tennis tournament, and a baseball match are being held. The golf will be played at the Mount Royal Golf Club, and the charge will be seventy-five cents per player. The tennis and baseball will be played on the Campus, and the fees are included in the price of the invitation to the ball. Other tennis and baseball tournaments will be held at two-thirty this afternoon, three games being played in each tournament.

At four o'clock this afternoon a tea will be given for the R.V.C. Graduating class. The tea will be held at the University Women's Club at 3492 Peel St., and Dr. Roscoe will receive.

Tomorrow the main event will be Convocation, but thereafter, from four to six in the afternoon, there will be an "at home" at Royal Victoria College and at Douglas Hall for members of the graduating class, their parents and friends.

Amongst the activities already completed, are the Baccalaureate Service held Sunday Morning in Moyse Hall, at which the Principal, Dr. F. Cyril James, delivered the address, the golf tournament, tennis tournament, and baseball match, held yesterday morning, and the special McGill Convocation Night at Belmont Park last night.

NOTICE

Will Graduating students who have won Athletic Awards please call at the Athletics Office for their "M" Certificate.

CONVOCATION ACTIVITIES

Tuesday, May 26:
2.30—Tennis Tournament.
Baseball Match
Commerce vs. Law
M.S.P.E. vs. Medicine
Engineering vs. Arts
4.00—Tea for Graduating Class of R.V.C. at the University Women's Club, 3492 Peel Street.
Class Dinners.
Wednesday, May 27:
10.30—Convocation.
4.00 to 6.00—At Home at R.V.C. and Douglas Hall.
10.00 to 3.00—Convocation Ball.

Enlistments Reach 500

Figures Climb As McGill Men Join This Year

The most recent estimate of the number of McGill graduates and past students who have enlisted in the armed forces since the outbreak of the war reaches a figure between four and five hundred. Adding this number to that of the other graduates and former students who were already in the services at that time, one reaches a total of from 1600 to 1700 students and graduates of the University now on active service. These figures have been compiled from reports of the various faculties of the University and from the report of the Graduates' Society. The information is not complete, because neither the Graduates' Society nor the University authorities have been able to obtain the names of all those who have enlisted in the past three years, and the figures issued by the University represent a minimum possible total.

Since 1939, 376 undergraduates are known to have joined one or another of the branches of the armed forces. It has been reported by the Faculty of Arts and Science that 170 students have enlisted. From the Faculty of Engineering, 68 graduates of the past three years are now in the armed forces, and 25 members of the Faculty of Law, including 16 undergraduates and 9 graduates have also enlisted.

Postgraduate students known by their faculty to have enlisted total 32. It has been learned from the Faculty of Dentistry that 3 undergraduates have enlisted in the Air Force, and that 14 graduates of the past three years have entered the Canadian Dental Corps. Enlistment among members of the Faculty of Medicine has been discouraged, rather than encouraged by the University, because word was received from government sources that medical students were expected to remain at their studies and finish their courses. It has been reported, however, that 4 undergraduates have joined up, and approximately 60 of the classes of 1939 and 1940.

These figures have been compiled through voluntary information offered by the students themselves, or in answer to requests to graduates sent by the Graduates' Society. Since students have in many cases enlisted in the summer months without notifying the University, the statements issued by the authorities are not complete, although they have submitted figures which, to the best of their knowledge, are approximately correct.

The number of students who have left college during the 1941-42 session, and the graduates and undergraduates who plan to do so after the completion of the year has not yet been determined, but is reported to be considerable. The Graduates' Society has records of 30 graduates who have already lost their lives in the war.

Dr. Fryer Is Named Professor Emeritus

Dr. C. E. Fryer, who was a professor of history at McGill for twenty years before his retirement, has been named by the board of governors of the University as Professor Emeritus of history at McGill. The governors stated that they wished to recognize Dr. Fryer's "long and eminent service to the University."

Dr. Fryer, who lives in California at the present, joined the staff of McGill in 1906 as a lecturer in history. He was appointed to positions successively higher until he was made professor of history in 1921. In 1923 he was made chairman of the department. Dr. Fryer was graduated from the University of California in 1899. He also studied at Harvard University, and later taught there.

Dr. James Emphasizes Endeavour of Individual

Progressive People Indispensable for National Survival

"In this modern age of industrial assembly lines, standardized products and mechanical armies, we are inclined to under-rate the importance of the individual and think in terms of mass psychology, but mass psychology has never been responsible for one single creative act in the whole history of the human race," stated Principal James in his address at the Baccalaureate Service on Sunday. "It is the INDIVIDUAL that counts," he continued. "Every problem that has arisen since man first walked upon this earth has been solved by an individual, and you are not less able than your predecessors."

In addition to a large number of the graduating students, the M.R. T.B. detachment, newly returned from army camp, formed part of the capacity audience at Moyse Hall. A portion of the Unit's band provided the music for the hymns. The service was conducted by the Reverend W. Aldworth Ferguson, M.A., D.D., the Principal of the Montreal Diocesan College.

Dr. James, in the first part of his address, brought forward the point that, a nation, no matter how strong it appears to be, cannot rest on its laurels, thinking complacently only of its glorious past, and not endeavouring "to keep abreast of the march of human progress."

"At the very moment when it seemed rich and invincible beyond the dreams of man, Assyria faced the greatest challenge in its history. While the Assyrians looked complacently backward to a pleasant past, the people of less favored nations turned their eyes upon the horizon of the future and painfully moved forward by slow steps that would bring them nearer to their goal. Assyria was found wanting, because it had failed to keep abreast of the march of human progress, and, if I interpret the record aright, the great ones of the nation failed to realize that fact. The Chaldeans and the soothsayers, the men upon whose advice the king leaned, could not read the writing upon the wall, nor make known to the king the interpretation thereof. None of the standards which they had found so useful in the past could help them to meet this latest emergency, but the challenge was fully appreciated by an unimportant young man from one of the least important of the occupied countries, who had been brought to Babylon as a slave."

Such a nation has need of far-sighted and progressive people. It is the task of the younger element to play such a part.

"The challenge that faces us is clear. We know that, in order to preserve the finest things of that western civilization that is our inheritance, we must defeat decisively the forces that are arrayed against us. And when that task is finished, we shall not be able to rest upon our oars, because it becomes increasingly apparent that war itself must be eliminated if our civilization is to be preserved."

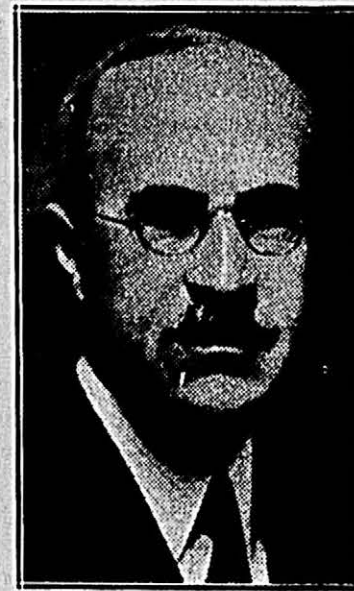

"I cannot, as I look toward the years that lie ahead of us, suggest that your paths will lie in pleasant places. You will not, if you are wise, be able to capture that easy optimism which characterized Anglo-Saxon thought at the end of the nineteenth century, when your grandfathers were graduating from college. There will be too many problems confronting you for you to think that everything happens (Continued on Page Two)

Moffat to Address Graduates; Power, Birks, Gordon, Moffat Will Obtain Honorary Degrees

Receive Honorary Degrees

C. G. POWER

A. H. GORDON

Silvercruys Will Present Bust of Douglas to McGill

A gift to McGill University will be presented by Baron Silvercruys, Belgian Minister to Canada, at a Convocation Luncheon this coming Wednesday. This gift takes the form of a bust of Dr. Lewis Douglas, former principal of McGill, and is the work of the Baron's sister, Suzanne Silvercruys.

This is one of her most recent works, and was exhibited last winter in New York. In private life, she is Mrs. Edward Stevenson, of Dayton, Ohio.

Dr. Douglas was president of this University in the years 1938 and 1939, resigning to become president of the Mutual Insurance Company. Since then he has accepted the position of the U.S. deputy shipping administrator. The importance of his wartime duties make it doubtful that he and Mrs. Douglas will be able to attend this luncheon.

Dr. Cyril James and Sir Edward Beatty will give this luncheon immediately following Convocation Exercises. Guests of honor include Suzanne Silvercruys, and the four recipients of honorary degrees—Hon. J. Pierpont Moffat, Hon. C. G. Power, W. M. Birks and Dr. A. H. Gordon.

R. V. C. Will Remain Open

Dr. Roscoe And Regular Staff To Operate College

To accommodate the coeds taking the speeded-up courses, the Royal Victoria College will remain open during the summer months. In addition to the regular students, applications for residence are being received from members of other universities who wish to attend the summer term, which commences June 15.

Dr. Muriel V. Roscoe, warden of the R.V.C., will remain in charge, assisted by resident tutors, and the regular staff of the college will be kept on. A special program of recreation and physical development will guard the health of the students, it has been announced.

The college is at present being renovated for the summer term which will start on June 15. Women students at McGill University have exerted leadership in promoting the war effort at the university in several phases of action, and it is in response to their request that the college remains open.

Procession to Commence 9.45

Ceremony Scheduled For Campus— Gym If It Rains

Hon. J. Moffat, United States Minister to Canada, will deliver the address at the annual spring convocation which is to take place tomorrow. In addition to Mr. Moffat, three distinguished Canadian citizens, Hon. C. G. Power, Minister of National Defence for Air, W. M. Birks, governor of McGill, and Dr. A. A. H. Gordon, one of Montreal's internationally known physicians, will receive honorary degrees.

Prior to the conferring of degrees on the honored guests and on the graduates, the procession of graduating students and professors of the various faculties will assemble outside the Arts Building at 9.45 a.m. Weather permitting, the convocation will be held as usual on the campus. If it is raining, ceremonies will be conducted in the Sir Arthur Currie Memorial Gymnasium.

Some 500 degrees will be conferred on graduating students, many of whom will be in uniform. Convocation is being held earlier than usual this year to permit students training to be officers to get away to camp and return in time for summer courses in medicine, arts and science.

Mr. Moffat was appointed by President Roosevelt as Minister to Canada in May, 1940. He had been previously chief of the European division in the State Department.

After graduation from Harvard University he became private secretary in 1917 to the United States Minister at the Hague and assistant in the legation. He was assigned to Warsaw two years later, and then served in Tokyo and Constantinople. He played a prominent part in the preparatory work for the World Disarmament Conference in Geneva, and was secretary of the United States delegation to a conference in Geneva in 1929 while elaborating upon an international agreement for humane treatment of prisoners of war.

In 1932, he was appointed chief of the division of Western European Affairs. Before being named chief of the European division, he served as consul-general at Sydney, Australia. Still only in his 45th year, Mr. Moffat has a record of steady advancement in the field of service which he has selected.

Mr. Power, whose work in connection with the administration of the Commonwealth Air Training plans has contributed greatly to the Allied Cause, was born at Sillery, Quebec. He attended Loyola College and Laval University, and was called to the bar in 1910. During World War I he won the Military Cross for distinguished service. He has been a member of the House of Commons since 1917, and became Minister of Pensions and National (Continued on Page Eight.)

INSTRUCTIONS TO GRADUATES STRESS THESE POINTS:

Candidates must sign the register of graduates in the Registrar's Office before Convocation Day.

After the distribution of caps, gowns and hoods, from 8.30 a.m. to 9.30 a.m. on that day, the procession will form at 9.45—if fine, by the Arts Building; if wet, in a tent near the Gymnasium on Pine Avenue West.

Graduates will assemble, and take their places in alphabetical order, according to their faculty, and remain standing till those on the platform have taken their places.

Those receiving degrees will ascend the platform to the left, remain standing before the Chancellor or Principal to have their degree conferred, and again remain standing in their places till those on the platform have passed down the aisle.

Diplomas will be distributed in the Registrar's Office between the hours of noon and 5 p.m.

Convocation

If this year's convocation is linked with the somewhat overworked question of war, the reason may be attributed to the ever increasing realization by university students that they are inextricably connected not only with the prosecution of this war, but with the successful readjustment of the world following this retrogressive step in mankind's progress.

Tomorrow students will be told that they are the "leaders of tomorrow" and that people look upon them as such; that they must make great sacrifices for the war; that they are the third class to graduate under war conditions; that this year more than ever before they will face trying conditions which it is hoped they will meet with courage and confidence.

But convocation has an even greater significance: it symbolizes the existence of an institution conceived with the idea of "advancement of learning"; an institution which has fostered the highest ideals since its founding many years ago: more to the point, existing when most institutions of its kind, in Axis and Axis dominated countries, are tottering or have fallen. To graduating students it signifies the end of a transient phase of their lives—a phase in which they acquired not only "book larnin'" but the ability to think individually and to assume their proper place in a restless and uncertain society.

Nevertheless, this year's convocation is different—more students than ever will receive their degrees in absentia. A greater number will leave shortly after convocation to take their place either with their fellow students in the armed forces, or in war research which is as essential as any military aspect of the war.

It must be remembered, however, that while students role actively in this war is a very important one, an equally important and none the less essential duty of graduating students is to equip themselves for confronting, and at the same time studying carefully, post-war problems.

In their eagerness to help in all ways possible, they must not lose sight of the fact that, while winning the war is imperative we must at the same time preserve our culture, and assure ourselves of a sufficient number of educators, so that McGill will remain "The Royal Institution For The Advancement of Learning."

Summer School

An important step in the right direction has been made by the Senate in instituting the Summer Courses. Similar steps have been taken by most British and American universities, which realized the assistance this speed-up would give to many of their students.

It is certainly true that most of the undergraduates are earnestly desirous of joining up, and are detained only by the realization that the completion of their course will do themselves and their country more good. Consequently, any step the university may make to enable these students to accelerate their studies will be welcomed.

On the other hand, it must be remembered that many of the students at McGill must work during the summer vacation in order to continue their university career. To them the fact that the acceleration is optional is a great boon, and great credit

is due to the Senate both for their foresight in considering this fact and for their industry in organizing the two curricula.

The case of students in medicine has been treated differently. Very few of these students rely on summer work to keep them in college; further, their services are urgently needed both in war and civilian life. For these reasons the accelerated course in Medicine is compulsory.

Credit must also go to the faculty members, most of whom are already overworked and deeply engaged in war research. That these men should undertake to deliver a new set of lectures in place of a well-deserved rest is a tribute both to the professorial staff and to the University.

Guests

In recognizing the achievements of the four distinguished leaders who will tomorrow be granted honorary degrees, McGill is paying tribute to men of outstanding accomplishment in their respective fields. The recipients—Hon. J. P. Moffat, United States Minister to Canada; Hon. C. G. Power, Minister of National Defense for Air; Dr. A. H. Gordon, internationally known Montreal physician; and William Birks, prominent in finance, education, community activities and international affairs—all have shining records of interest and devotion to international, national and community service as well as brilliant achievements in their professions.

Hon. J. Pierrepont Moffat, who will deliver the Convocation address, has been American Minister to Canada since June, 1940. His experience and ability have been an important factor in the development of closer relations between the two countries during this difficult period. A graduate of Harvard, he has been attached to legation posts in the Netherlands, Warsaw, Tokyo, Constantinople and Berne, Switzerland. He has been chief of the division of western European affairs in the U.S. Department of State and later consul general in Sydney, Australia, before being appointed to his present position. Last year his accomplishments were honored by the presentation of honorary degrees from the University of Toronto, Tufts College, and Queen's University.

Mr. Power has been responsible for the successful execution of the British Commonwealth Air Training Plan, as well as being director of the Royal Canadian Air Force. His success in these vitally important posts has won him the gratitude of every Canadian. The Quebec cabinet minister, who is a graduate of Loyola and Laval, and a Great War veteran, has been elected to Parliament continually since 1917, and has served as Minister of Pensions and National Health and as Postmaster General.

Dr. Gordon is one of McGill's most outstanding alumni. From 1902 until 1939 he served in various teaching posts in the faculty of Medicine, including that of Professor; he has served on the staff of the Montreal General and other city hospitals; and is the author of many scientific papers. The Royal College of Physicians and many other Canadian and American medical bodies have honored him with membership.

Mr. Birks, a governor of McGill since 1910, is prominent in the field of education in Montreal, a well known merchant, manufacturer and philanthropist, and a director of many business enterprises. He has been connected with Montreal, Canadian and International Trade Associations, and active in International Affairs Institutes, being a Canadian delegate to a number of Pacific Relations Conferences.

We at McGill are proud to add to the long list of honors already bestowed on these widely-recognized men.

Unselfish Gesture

For quite some time the Chancellor of the University, Sir Edward Beatty, has been in ill health. As a result of this illness, Sir Edward found the pressure of his many duties too great. To alleviate the burden, he was forced to resign the presidency of the Canadian Pacific Railways.

Though the position of Chancellor is an arduous one, Sir Edward, to the great satisfaction of all connected with McGill, is continuing in that capacity, in which he has so capably served for the past two decades. His graciousness in retaining this post has been gratifying to the University; his fondness for McGill requires that he should continue to play an active part in its government.

In spite of his illness, the Chancellor attended Convocation last year, though unable to leave his car. It is hoped that he will be able to attend the ceremonies tomorrow.

Students in Forces

Since the declaration of war in September, 1939, from 400 to 500 under-

graduates of McGill have enlisted in the active or reserve armed forces. In addition to this number, the Graduates' Society has reported that over 1,200 graduates and former students of classes previous to the class of 1939 are at present in war service.

The total number of undergraduates who have enlisted is unknown because the facts relating to their enlistment are not always available to University authorities. The figures submitted by the various faculties do not constitute a complete roll of their members who are now in the armed forces, but they have made reports which are as complete as possible.

Undergraduates from the Faculty of Arts and Science who have enlisted since the outbreak of war total 170. Sixty-eight graduates of the past three years in the Faculty of Engineering are known to have enlisted. The Faculty of Law has reported that 9 graduates and 16 undergraduates are at present enrolled in various branches of the services. From the Faculty of Dentistry 3 members of the class of 1942 enlisted in the R.C.A.F., and 14 members of the two previous classes joined the Canadian Dental Corps after graduation. The number of post-graduate students known to have entered the armed forces totals 32. In spite of the fact that enlistment of medical students has been discouraged by the University, 4 undergraduates have enlisted, in addition to approximately 60 graduates of the classes of 1939 and 1940.

These facts and figures are indicative of the opinion of a large number of university students, who believe that they can best contribute to the country's war effort by enlisting in the armed forces. The Graduates' Society has reported that 30 graduates, past students, or others connected with McGill have already lost their lives in the present war. In addition to the number of graduates and undergraduates mentioned above, a number, not yet determined, of members of the Class of 1942, and other undergraduates, have already enlisted, or are planning to enlist in the near future.

Generous Gifts

Through the generous gifts of Mr. J. W. McConnell, financier, publisher, and a Governor of the University, McGill has been able to augment considerably its building facilities at a time when the increasing activities resulting from the war effort require more and more of our existing space. Included in this donation are a magnificent house located at 1020 Pine Avenue which is to be known as "The Arthur Purvis Memorial Hall," and the property at 1200 Pine avenue.

Formerly the residence of the late Right Honorable Arthur Purvis, past President of Canadian Industries Limited and chairman of the British Supply Council in North America, this home will be used to house the fast developing School of Commerce. This donation has not only provided the much needed accommodation for the School of Commerce, which has traditionally been located in the West wing of the Arts Building, but it establishes a memorial to the late Mr. Purvis, who has for a long time been very much interested in the activities of the University.

The new School of Commerce Building will bring with it many of the ideals which Commerce have long been seeking. The spacious rooms on the ground floor of Purvis Hall will be used as reading rooms for Commerce students. A special Commerce library can be made available. Such a building will provide accommodation for Commerce students to get together more often in order to discuss current business problems. These informal discussions will create a new spirit which has long been lacking among students in Commerce.

The other property presented by Mr. McConnell was formerly the residence of Dr. Lewis Douglas while he was at McGill University. Such a building may be used as Principal's residence.

To the Class of 1942

Cries of crushed souls from the horizon clouding;
Anguish their anthem; ayes, —depair;
Shades of the future with sorrow enshrouding,
What world 'neath the war-wreck is waiting them there?
Some story seas with their high waves will sepulchre;
Some in hell's holocausts will hew their name;
Others, the Spirits of Sky-worlds away will bear
Into the unknown, the dark night of fame.
Let them be the leaders, the light of new nations,
Hoping all hatreds their harness to sever,
To guard smouldering embers should glow not again;
—Rebuilding the wreck from its ruins with patience,
That traitors and tyrants entombed be for ever
That valour and victory be not in vain.
—MULLIGAN.

The Distaff Side

By Judy

R.V.C. Remains Open

For the third consecutive summer R.V.C.'s windows will remain unshuttered; the residence is remaining open not for evacuee children or R.C.A.F. this time but for the coeds themselves. Applications for residence from outside students are being received for the summer term.

Coeds Parade

About 40 members of the McGill Detachment of the Canadian Red Cross Corps marched in the C.P.C. Parade last Thursday night, while six of their numbers were on a float packing parcels for prisoners of war. Despite the fact that it seemed as though everyone in Montreal (10,000 to be exact) was in the parade, some 235,000 persons lined the five-mile route to watch the marchers.

He Likes Us!

One of the members of the Class of '42, who has been attending classes all winter in between ferrying bombs about, reports on his return that he prefers McGill coeds to the girls he met on his last trip. Without divulging any military secrets, we might hint that he has just been in the vicinity of the Arctic. Never having met an Eskimo lassie, we don't know just how flattering the comparison is.

New Quarters.

Our Commerce men expect to have their marks raised about 30 per cent. after they move into their new quarters in the Arthur Purvis Memorial Hall on Pine Avenue. The reason they give is not the improved dispositions of their profits, but the fact that they will no longer have the distracting R.V.C. element about when they are studying. Judging from what we have observed in Redpath in the last four years, they will probably miss the distracting element.

Hasta La Vista

This anti-climax to our concluding column in March comes not as a farewell but merely as an au revoir for the Distaff Side will be coming to you from Bryn Mawr College next winter. It is not traditional for all women's editors of the 'Daily' to do their graduate work at this college, but we gladly follow in the footsteps of H. B., and hope that more members of McGill's Distaff Side will be fortunate enough to do the same in future years.

Dr. James Emphasizes Endeavor of Individual

(Continued from Page One)

for the best in the best of all possible worlds.

"But if you are wise, you will realize that such easy optimism is itself an unhealthy sign. . . I hope that you will always be mentally alive to the problems that confront you, and courageous enough to realize that old ideals can only be preserved by new solutions that are adapted to a changing environment."

"Is that a hard saying? If you remember history, you will realize that every nation, and every individual, is continually 'weighed in the balances.' The appraisal of Belshazzar was not a unique incident that happened long ago; it is repeated daily in every part of the world, and those who fail to respond to the challenge that confronts them are soon numbered with the Assyrian among the fallen. Each step of our growth is measured by the problems that we confront, and the extent of our progress is determined by the solutions that we find for them. In this regard at least, the material affairs of business must be measured by the same standard as the more intangible aspects of spiritual and mental growth: the welfare of a nation is as much affected as the growth of a corporation or the happiness of an individual. Neither happiness nor power is to be attained by blind optimism and an unreasoning devotion to tradition."

The Principal emphasized that it is the individual that counts, that problems are solved by the individual. Furthermore, "the men and women who were responsible for some of the great developments of history had no greater equipment than you possess. . . It is the unimportant people, in the vast majority of cases, who make the greatest contributions."

"What is the secret of their success? In the first place, I think that each of the persons I have mentioned possessed in special

measure the mental ability to face their problems squarely. They looked facts in the face, unpleasant though they might be, and attempted to appraise them accurately so that they might find out what could usefully be done. If you will examine the records of their lives you will find, too, that the problems which confront them were, in most cases, personal, so that the things which benefited mankind arose out of the wise solution of a difficulty that confronted one individual.

"Secondly, in the words of the scripture that was read to you this morning, they were armed with 'the sword of the spirit, which is the word of God.' They knew the difference between right and wrong, and had a clear sense of values that enabled them to reach wise judgments.

"And thirdly, I think that all of them possessed in large measure that love of their fellows which is the second of Christ's commandments. They were interested in the men and women who surrounded them, and knew the travail of their neighbors.

"These three qualities of wisdom, justice and mercy are not new. Thousands of years have passed since the prophet first pointed out that 'the love of God is the beginning of wisdom,' and every great religious teacher has repeated the message. But it is equally apparent that these qualities are not unattainable. Men and women with lesser advantages than those which you possess have been wise, just and merciful. They, too, have faced problems and solved them richly. They, too, have been weighed in the balances, but were not found wanting.

"I cannot wish that you should go through life without confronting problems, and I know that, for some of you, those problems must inevitably be serious. But I pray that God may grant each one of you the grace to solve these problems wisely, and with justice, so that you may not be found wanting in the sight of God and of your conscience. If that prayer be granted, you will find happiness.

Accelerated Courses Announced in Arts and Science; Grants Given to Assist Medical and Dental Students

June 15 Date Of Registration

Work of Arts Science, Commerce Students Listed

The general outlines of the Summer School at McGill are shaping rapidly. The courses which will be given have been announced and have been formed into a time-table, and registration for summer instruction will be taken on June 15.

Science students who have completed their third year in good standing will be obliged to take three and a half courses in order to fulfil the requirements for the degree, while students in Arts and Commerce under the same circumstances need two and half courses. Students not entering their final year may take advance courses; those in Arts will be permitted to take two courses and Science and Commerce students may take two and a half courses. The fees are \$60 per full course and \$30 per half course.

Courses Listed

The following courses will be offered during the summer at the following time which, however, are not yet definite:

Accountancy 4, Tues. Wed., Thurs. 11-1 p.m.
Business Organization, Tues., Wed., Thurs. 2-4 p.m.
Biochemistry 2, With Medical students—consult Dr. D. L. Thomson.
Chemistry 2 (Organic); 3a, 3b (Analytical); 4 (Physiological); hours to be arranged. Similarly 4th Year Honours: Chemistry 12, 15, 17, 18, 20, 21.
Commercial Law (Half Course), Mon., Fri., Sat. to be arranged.
Economics 1, Elem. of Political Economy, daily Mon. to Fri. 9 a.m.
Economics 6, (Half course) Economic Problems of Canada, Mon., Wed., Fri. 10 a.m.
Economics 10, International Trade, daily Mon. to Fri. 9 a.m.
English 4, 19th Century Literature, daily Mon. to Fri. 2 p.m.
French, Any 3 courses of the French Summer School (June 26 to Aug. 8) approved by the Director, will be counted as 1 Faculty course; 2 French Summer School courses as ½ Faculty course. For Detailed information write the Secretary, French Summer School.
Physics 2, Heat, Sound and Light, Hour to be arranged.
Physiology 1A or 1B, (Half courses) depending on registration. First six or last six weeks.
Psychology 1, Introduction, daily Mon. to Fri. 11 a.m.
Psychology 3A, Special Course in Psychological statistics, daily Mon. to Fri. 11 a.m.
Psychology 11, Psychological Problems in Business (Full course), daily Mon. to Fri. 12 noon.
Sociology 7, Family, daily Mon. to Fri. 8 a.m.
Zoology 1A, (Half course) Hour to be arranged (2 lectures and 1

Engineers Will Not Speed Up Courses For Degrees

It has been announced that there will be no accelerated courses given in the Faculty of Engineering. This does not apply to students in certain restricted branches of Engineering, who can carry on their studies in courses offered in the Arts and Science summer course.

The reason given for the decision not to accelerate courses is given as the dependence of the preponderance of students upon summer work to keep them in college. Since it would be impossible to carry on both accelerated and normal curricula the present rate of progress is being continued. It was further stated that most engineers study in the summer as a matter of course in preparing their essays, and that a full academic schedule in addition would be unduly strenuous.

laboratory per week throughout the session).

The following courses may be offered if there is a sufficient demand: Chemistry 5, Economics 7, Mathematics 15, Physics 3A, Psychology 13 (Abnormal), English 19, Political Theory (Half course, Dept. of Philosophy).

McGill Grads Receive Awards

4 Students Obtain \$750 Fellowships; 17 \$600 Grants

The National Research Council has recently released the names of 84 Canadian students, 21 of whom are from McGill, who have won scholarships for the academic session of 1942-43.

Students from the University who were awarded \$750 fellowships include W. Ashford, Vancouver; E. R. Boothroyd, Lenoxyville, Que.; J. A. Morrison, Medicine Hat, Alta.; and R. F. Patterson, Ocean Falls, B.C.

The following from McGill were awarded \$600 studentships:

J. Bigelow, Sackville, N.B.; A. N. Bourns, Pelticodiac, Que.; C. P. Brewer, H. E. Fisher and J. M. Pepper, all of Vancouver; F. C. Fraser, Bear River, N.S.; O. M. Friedman, Miss C. A. Livingstone, Miss M. N. Roche, I. Rochlin and Miss H. A. Winter, all of Montreal; W. E. Grummitt, Hannah, Alta.; L. Yaffe, Winnipeg; D. MacDougall, Lenoxyville, Que.; A. L. Thompson, Lemsur, Que.; H. L. Williams, London, Ont. and C. Packard, Dorchester, N.B.

In addition to the eight fellowships of \$750 and 37 studentships of \$600, 19 bursaries of \$250 were also awarded. These bursaries are donated to students of promise to enable them to undertake their first year of training in research and science.

Meds Sought For Forces

Compulsory Speed-up of Studies Outlined

The Dean's office is now sending out acceptances of applications for permission to take summer courses, along with instructions as to registration. Students are requested to register in Room 44 of the Arts Building on June 15 at 11 o'clock. Registrants are specially requested by the University authorities not to be late as final adjustment of courses will be made at that time, where such adjustments are possible, and to this end certain members of the staff will be in their offices for consultation previous to the hour set for registering. It is also remarked that the rule concerning continuation subjects will be less stringently enforced.

As well as the summer school in the Faculty of Arts and Science, a definite plan is being carried out also in the Medical Faculty to accelerate the course by means of summer instruction. Under this system the students will remain at their desks throughout the summer except for a two-week break in August. More specific details are due to be announced later.

Doctors Needed.

The reason for this speed-up in the Medical Faculty is that the Dominion Government has issued a strong appeal for more doctors, according to Dr. J. C. Meakins, Dean of the Medical Faculty.

Because of a lack of competent teachers it is believed possible that so critical a situation may arise as to necessitate the closing of one or more of the Medical Schools in this country. This state of affairs is due to the fact that many members of the Medical profession are enlisting in the armed forces and an increasingly greater burden is therefore being laid upon the remaining doctors.

COPPER SHORTAGE HITS SWITZERLAND

One and Two Centime Coins Henceforth Will Be Manufactured of Zinc

Swiss one and two centime coins will henceforth be made of zinc instead of the usual copper, because of the shortage of that metal, the consulate general here revealed on Saturday. Copper is practically unobtainable in Switzerland nowadays, it is stated, except under priority rulings for war demands, and countries ostensibly at peace get little from the world market.

Meat is now rationed, in Switzerland,

In addition to the members of the Students' Executive Council who receive A Certificates the following Senior Executive Awards were granted:

A. Awards

Alex. Stalker—"Old McGill" 1942.
Patricia Neilson—M.W.S.A.A.
—War Council.
—Gymkhana.
Tom Hardwick—McGill Salvage Committee.
—Freshman Reception.

B. Awards

Hasen Mackay—Red Wing Society.
Ray Rose—"Old McGill" 1942.
Elizabeth Hillman—"Old McGill" 1942.
—Freshman Reception.
Ernest Skutsky—President, Debating Union Society.
Bob Simpson—Forge.
Bill Munroe—McGill Union.
—Freshman Reception.
Ruth Hill—Freshie Reception.
James A. F. Stevenson—Medical Journal.
Murdoch Harvie—Players' Club.
Gordon Thomas—Vice-President, McGill Union.
—Mile of Pennies Campaign.
—Blood Bank.
Peter R. C. V. Hall—War Council.
Mary Miller—War Council.
—Forge.
—Arts and Crafts Committee.
Sydney Segal—McGill Daily.
Joan Mitchell—Debating.
—R.V.C. House Committee.
—M.W.S.A.A.
Herbert Steinhouse—McGill Daily.
Wayne Corse—McGill Daily.
Harvey Whiting—Blood Donors.
Charles Harris—Guinea Pig Club.
George Clarke—Convocation Committee.
—Federated Charities.
Anthony Lewis—Architectural Undergraduate Society.
Jim Graham—Medical Undergraduate Society.
—Scarlet Key.
Dick Stevenson—Commercial Undergraduate Society.
—War Council.

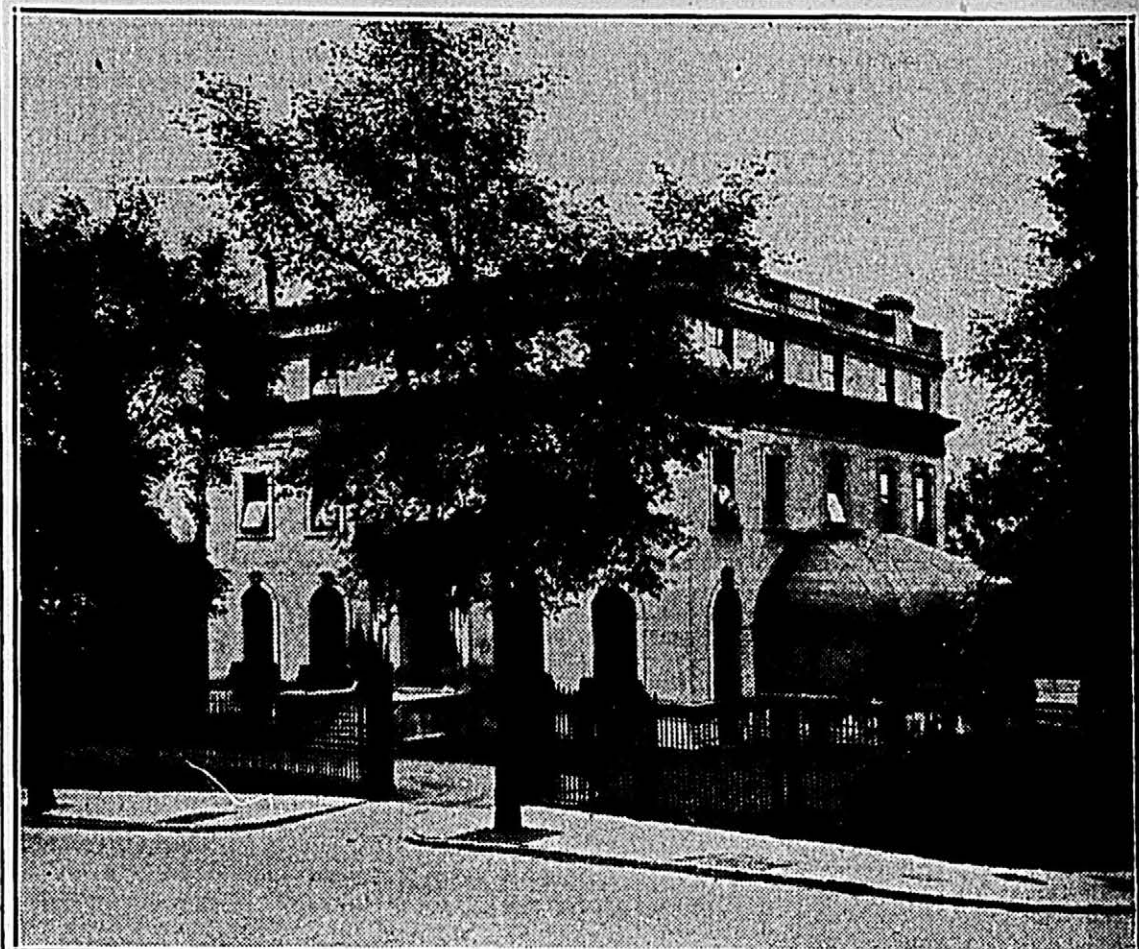

C. Awards

Murray Cross—Men's Glee Club.
H. Lloyd Henderson—War Council.
Susan O'Reilly—"
Bruce Russell—"
Jim Atkinson—"
Fyfe Macdonald—"
Marilyn Mechin—"
Bob Kingsland—Salvage Campaign.
Bruce Lobley—Salvage Campaign.
—Mile of Pennies Campaign.
Dorothy Murray—Women's Union.
—English Literature Society.
Marjorie Cross—Freshman Reception.
—La Société Française.
—Women's Union.
Robert Gripps—McGill Book Exchange.
Douglas Whiting—McGill Book Exchange.
James M. Kerr—McGill University Band.
William T. Stewart—Junior Prom Committee.
Thom. Mulligan—Arts & Science Undergraduate Society.
Norman Retallack—Engineering Undergraduate Society.

land, according to Berne reports, and although Wednesday and Friday are meatless days, the Swiss housewife can only purchase 4½ pounds of meat — including bones — each month. Week-end railway tickets, popular with the Swiss city — dwellers in peacetime, have now been cancelled, and traffic on the main lines has been drastically curtailed. Lubricating materials, rolling stock and electric power (many lines are electrified in Switzerland) are very much at a premium today, it is reported. However, to spare the tourist trade as much as possible, presuming there will be tourists this summer, some week-end tickets are expected to be available for genuine purposes, but as compared with pre-war conditions, it is said that railway traffic in the country has been reduced by at least 20 per cent.

The cost of living has mounted markedly since 1939. It is estimated that a total rise in Switzerland has been 37%. The country is experiencing great difficulty in securing

PURVIS RESIDENCE IS PRESENTED TO MCGILL AS NEW HOME OF SCHOOL OF COMMERCE

Residence of the late Rt. Hon. Arthur B. Purvis at Pine avenue and Peel streets, home of the late Sir Mortimer Davis, has been purchased and presented to McGill University by J. W. McConnell, Montreal publisher. It is to become the new home of the McGill School of Commerce and will be known as "The Arthur Purvis Memorial Hall." Mr. McConnell has also presented to McGill the property at 1200 Pine avenue, for use as the principal's residence or such other purpose decided by the Governors.

McGill Given Purvis Home

McConnell Gift To Be Used by Commerce School

A new home for the McGill School of Commerce has been made possible through the donation of Mr. J. W. McConnell, famed Montreal publisher and financier, of the property situated on 1020 Pine Avenue West. Also forming part of the donation is the property at 1200 Pine Ave. West, for which no definite arrangements have yet been made in regard to its use.

To be known as "The Arthur Purvis Memorial Hall" the new Commerce building was formerly the residence of the late Sir Arthur Purvis. Full details of the uses to which this building will be put have not yet been worked out, and only the broadest arrangement have been announced.

It is expected that the large rooms on the ground floor of Purvis Hall will be used as reading rooms for students in the School of Commerce and other fields of Social Sciences. Some of the books that are frequently used are, to be made available on the shelves of these rooms, while many others can be appropriately kept in stacks in the basement of the building.

As well as serving as a new Commerce building, the Purvis Hall will also serve as a permanent tribute by the University to the memory of one of its former Governors. This large mansion was built by Sir Mortimer Davis, tobacco magnate. It was purchased by Mr. Purvis in 1935. Mr. McConnell acquired the property from the Purvis estate at an undisclosed amount.

The other property presented by Mr. McConnell was the former

home of Dr. Lewis W. Douglas while he was principal of McGill in 1938 and 1939. Built by Russell Cowans in the late twenties, this home was presented to the University "as a principal's residence or for any other purpose decided upon by the Board of Governors." No definite arrangements have yet been made by the University in regard to the use of this property, but plans are now under consideration, and some definite announcement is expected in the near future.

Coeds and Careerists make H.R.'s their YOUNG RENDEZVOUS

For everything from timeless classics to dining-dancing dresses... at young "under twenty" prices.

Proud of our long friendship with the young women of the University... we take this opportunity to say...

CONGRATULATIONS TO THE CLASS OF '42... BEST OF LUCK!

McGill Issues Third Wartime Roster of Graduates

List of Over 500 Passed For Convocation May 27

Candidates From All Faculties Given Final Approval at Meeting of Senate at University

The roster of some 500 graduates for 1942 from McGill University, the third since start of the war, was released Friday afternoon by T. H. Matthews, registrar, following its final and formal approval at a meeting of the university senate.

Those whose candidatures have been passed by the senate, the top-ranking academic body at the university and holding sole official power to confer degrees, will receive their degrees, diplomas and certificates at the McGill convocation next Wednesday morning. The ceremony will be held on the campus weather permitting, otherwise in the Sir Arthur Currie Memorial Gymnasium-Armory.

Some degrees will be conferred in absentia, especially those who have already left the city for active service or training with the armed forces. Those known by university officials to be on active service are indicated with an asterisk (*).

The convocation will be featured by an address by Hon. J. Pierrepont Moffat, U.S. Minister to Canada, who will receive an honorary degree of LL.D. at the ceremony along with Hon. C. G. Power, Minister of National Defence for Air; W. M. Birks, chairman of Henry Birks & Sons Ltd.; and Dr. A. H. Gordon, F.R.C.S., former professor of medicine at McGill.

Following is the full list as issued of graduates in medicine, arts, science, engineering, law, dentistry, agriculture, music, household science, nursing, physical education, library science, and graduate studies and research:

FACULTY OF ARTS AND SCIENCE

Passed for degree of B.A.

Men.
Adams, Samuel Townsend, Westmount; Albert, Harold Samuel, Westmount; Bennett, Henry Harrison, Sackville, N.B., honors in economics and political science; Cooke, Geoffrey Somerset, Montreal, first class honors in history and the Lieut.-Governor's Silver Medal; Cooke, Stuart Gordon, Westmount; Cole, Sarto Gaston, Granby, Que.; DeBlois, Thomas Des Brisay, Charlotetown; deJessey, Murray Gordon, Montreal, first class honors in psychology; Douglas, William Randolph, Verdun, second class honors in French and second class honors in history; Eaton, James George, Montreal, second class honors in history; Finestone, Harold, Montreal, first class honors in sociology.

*Flitton, Ralph Johnston, Town of Mount Royal, honors in English language and literature; Garmaise, Boris, Outremont; Goldman, Esmond, Montreal, second class honors in economics and second class honors in philosophy; Goodman, William, Montreal, certificate for distinction in the general course;

*Grant, William Alan, Ottawa, second class honors in economics and political science; Griffith, Arthur Leonard, Brockville; Harding, Errol Nicholson, Westmount; Hargaden, Kevin Lawrence Michael, Westmount, second class honors in economics and political science; Hutchison, Eric William, Westmount, honors in history; Kennedy, James Norman, Montreal; Kohl, George Gordon Powis, Guelph; Leclerc, Jules, Montreal; Lewtas, James Lawrence, Westmount, first class honors in economics and political science; McAllister, William Ross, Montreal; McCrimmon, Ian James, Rio de Janeiro, Brazil.

*McGowan, Gerald Harry, Montreal, first class honors in classics and the Henry Chapman Gold Medal; Mayer, Theodore, Westmount, first class honors in English language and literature and the Mary Keenan scholarship; Moore, Aubrey George, Safe Harbour, Newfoundland; Morgan, Alfred David, Westboro, Ont.; Mosbaugh, Francis Paul, Huntsville, Ont.

Mulligan, Thomas Cairns, Westmount, second class honors in English language and literature; Noseworthy, Donald Wilbur, Montreal; Panos, Dimitrios George, New York; Patch, Howard Morgan, Westmount; Patrick, John William, Westmount; Peron, Rene Emilian Samuel, Montreal, second class honors in French; Randolph, John Harrison, Westmount, second class honors in economics and second class honors in philosophy; Riddle, John Arthur, Danville, Que., honors in economics and political science; Scammell, Arthur Reginald, Montreal, first class honors in English language and literature; Silver, Reuben, Montreal; Simpson, Robert George, Town of Mount Royal.

Sirken, Irving Arnold, Montreal, first class honors in economics and political science and the Allen Oliver Gold Medal and Fellowship in Economics and Political Science; Soper, Warren Young, Montreal; Spearman, Donald, Westmount, second class honors in psychology; Steinmayer, Otto C., Westmount; *Van Santen, Robert James, New York; Wilner, Saul, Montreal, certificate for distinction in the general course; Wilson, James, Dunlop, Montreal; Zweig, David Norman, Montreal.

Women.
Allison, Beatrice Veronica, Montreal; Anastas, Kellope, Montreal; Aronoff, Dorothy Evelyn, Montreal; Barber, Evelyn Elaine, Winnipeg, second class honors in English and second class honors in French; Baly, Marjorie, St. Laurent; Bindman, Elizabeth Marcuse, Theftford Mines, Que.; Blair, Marion Hope, Westmount; Blair, Stella Nicholson, Westmount; Bokus, Helena Ruth, Montreal; Bonter, Dorothy May, Town of Mount Royal; Brodie, Elizabeth Mary, Montreal; Brown, Phyllis

Eleanor, Shawinigan Falls, second class honors in French; Bruneau, Ida Ruth, Westmount; Burke, Anne Margaret, Timmins; Clark, Anne Gibson, Pilot Knob, N.Y.

Clark, Jean Agnes, Holyoke, Mass.; Henry Chapman Prize and certificate for great distinction in the general course; Coonan, Patricia Mary, Montreal; Crowley, Mary Barbara, Montreal West.

Davidson, Jane Dickson, Montreal; Dettmers, Olive Elsie, Westmount; Dodd, Ella Margaret Anne, Town of Mount Royal; Drury, Lydia Anne, Montreal; Dunn, Nan Virginia, Montreal; Eastman, Phyllis Louise, Sutton, Que.; Eddy, Mary Thelma, Woonsocket, R.I.; Edward, Joan Christina, Montreal; Elkin, Sonya Yetta, Westmount; Ferencz, Agnes Maria, Montreal, second class honors in sociology; Fliz, Phoebe Marion, Brookline, Mass.

Grove, Sylvia Irvine, Montreal West, certificate for great distinction in the general course; Henry, Gladys Isobel, Montreal West; Hewson, Agnes Patricia, Lacolle, second class honors in French; Hyndman, Helen Winslow, Framingham, Mass.; Jaffe, Judith Hannah, Montreal, second class honors in sociology; Johnson, Barbara Hosner, Hampstead; Keohan, Margaret Helen, Montreal; Ker, Valerie Irene, Westmount, second class honors in French and second class honors in German; Kirsch, Beatrice Victoria, Montreal; Knubley, Myrian Barbara, Hampstead; Laing, Eleanor Amy, Westmount; Lawrence, Ivy Marjorie, Verdun, first class honors in English and second class honors in French; Levine, Marion Irene, Montreal; Lipton, Florence, Montreal; Logan, Mary Gladys, Montreal, first class honors in Latin and first class honors in English; Mackay, Ada Hazen, Rotherham, N.B.; Mackay, Dora Mary, Montreal West; McKay, Margaret Campbell, Montreal (on war service); MacLean, Mona Gillian, Rosemount, second class honors in English and first class honors in German; McLeod, Colena Margaret, Megantic, Que.; MacMillan, Margaret Isabel, Westmount; McMurray, Margaret Elizabeth, Strathmore, Alta.; McNiece, Lawrence Shirley, Montreal; Main, Margaret Buchanan, Westmount; Markham, Marion Elaine, Westmount.

Martin, Margaret Daphne, Montreal, second class honors in German and second class honors in history; Mathews, Mary Gladys, Montreal; Millen, Margaret Florence, Montreal; Millen, Phyllis Mary Marguerite, Port Nelson, Ont.; Milne, Margery Jean, Smiths Falls, first class honors in English and second class honors in history; Moreau, Beatrice Adeline, Montreal West; Cotterell-Morris, Gladys Maureen, Calgary, first class honors in English and second class honors in French; Peterson Memorial Prize for creative writing; Murray, Dorothy Marion, Kingston, Jamaica, B.W.I., first class honors in English and first class honors in French; Nadler, Alice Ethel, Montreal.

Neilson, Margaret Patricia, Westmount, second class honors in sociology; Nutter, Mary Catherine Howard; O'Reilly, Isobel Margaret, Toronto; Pequegnat, Mary Hortense, Kitchener; Percy, Cynthia Frances, Westmount; Pettes, Que.; Blair, Marion Hope, Westmount; Blair, Stella Nicholson, Westmount; Bokus, Helena Ruth, Montreal; Bonter, Dorothy May, Town of Mount Royal; Brodie, Elizabeth Mary, Montreal; Brown, Phyllis

Eleanor, Shawinigan Falls, second class honors in French; Bruneau, Ida Ruth, Westmount; Burke, Anne Margaret, Timmins; Clark, Anne Gibson, Pilot Knob, N.Y.

Clark, Jean Agnes, Holyoke, Mass.; Henry Chapman Prize and certificate for great distinction in the general course; Coonan, Patricia Mary, Montreal; Crowley, Mary Barbara, Montreal West.

Davidson, Jane Dickson, Montreal; Dettmers, Olive Elsie, Westmount; Dodd, Ella Margaret Anne, Town of Mount Royal; Drury, Lydia Anne, Montreal; Dunn, Nan Virginia, Montreal; Eastman, Phyllis Louise, Sutton, Que.; Eddy, Mary Thelma, Woonsocket, R.I.; Edward, Joan Christina, Montreal; Elkin, Sonya Yetta, Westmount; Ferencz, Agnes Maria, Montreal, second class honors in sociology; Fliz, Phoebe Marion, Brookline, Mass.

Grove, Sylvia Irvine, Montreal West, certificate for great distinction in the general course; Henry, Gladys Isobel, Montreal West; Hewson, Agnes Patricia, Lacolle, second class honors in French; Hyndman, Helen Winslow, Framingham, Mass.; Jaffe, Judith Hannah, Montreal, second class honors in sociology; Johnson, Barbara Hosner, Hampstead; Keohan, Margaret Helen, Montreal; Ker, Valerie Irene, Westmount, second class honors in French and second class honors in German; Kirsch, Beatrice Victoria, Montreal; Knubley, Myrian Barbara, Hampstead; Laing, Eleanor Amy, Westmount; Lawrence, Ivy Marjorie, Verdun, first class honors in English and second class honors in French; Levine, Marion Irene, Montreal; Lipton, Florence, Montreal; Logan, Mary Gladys, Montreal, first class honors in Latin and first class honors in English; Mackay, Ada Hazen, Rotherham, N.B.; Mackay, Dora Mary, Montreal West; McKay, Margaret Campbell, Montreal (on war service); MacLean, Mona Gillian, Rosemount, second class honors in English and first class honors in German; McLeod, Colena Margaret, Megantic, Que.; MacMillan, Margaret Isabel, Westmount; McMurray, Margaret Elizabeth, Strathmore, Alta.; McNiece, Lawrence Shirley, Montreal; Main, Margaret Buchanan, Westmount; Markham, Marion Elaine, Westmount.

Martin, Margaret Daphne, Montreal, second class honors in German and second class honors in history; Mathews, Mary Gladys, Montreal; Millen, Margaret Florence, Montreal; Millen, Phyllis Mary Marguerite, Port Nelson, Ont.; Milne, Margery Jean, Smiths Falls, first class honors in English and second class honors in history; Moreau, Beatrice Adeline, Montreal West; Cotterell-Morris, Gladys Maureen, Calgary, first class honors in English and second class honors in French; Peterson Memorial Prize for creative writing; Murray, Dorothy Marion, Kingston, Jamaica, B.W.I., first class honors in English and first class honors in French; Nadler, Alice Ethel, Montreal.

Neilson, Margaret Patricia, Westmount, second class honors in sociology; Nutter, Mary Catherine Howard; O'Reilly, Isobel Margaret, Toronto; Pequegnat, Mary Hortense, Kitchener; Percy, Cynthia Frances, Westmount; Pettes, Que.; Blair, Marion Hope, Westmount; Blair, Stella Nicholson, Westmount; Bokus, Helena Ruth, Montreal; Bonter, Dorothy May, Town of Mount Royal; Brodie, Elizabeth Mary, Montreal; Brown, Phyllis

Eleanor, Shawinigan Falls, second class honors in French; Bruneau, Ida Ruth, Westmount; Burke, Anne Margaret, Timmins; Clark, Anne Gibson, Pilot Knob, N.Y.

Clark, Jean Agnes, Holyoke, Mass.; Henry Chapman Prize and certificate for great distinction in the general course; Coonan, Patricia Mary, Montreal; Crowley, Mary Barbara, Montreal West.

Davidson, Jane Dickson, Montreal; Dettmers, Olive Elsie, Westmount; Dodd, Ella Margaret Anne, Town of Mount Royal; Drury, Lydia Anne, Montreal; Dunn, Nan Virginia, Montreal; Eastman, Phyllis Louise, Sutton, Que.; Eddy, Mary Thelma, Woonsocket, R.I.; Edward, Joan Christina, Montreal; Elkin, Sonya Yetta, Westmount; Ferencz, Agnes Maria, Montreal, second class honors in sociology; Fliz, Phoebe Marion, Brookline, Mass.

Renshaw, Rose Madeleine, Strathmore, Que., Governor-General's Gold Medal and first class honors in English and first class honors in French; Ross, Margaret Eileen, Westmount, second class honors in English and second class honors in history; Russell, Margaret Elspeth, Matane, Que.; Spindlove, Patricia Allison, Winnipeg; Stuart, Jean Catherine, Westmount; Tencer, Frances Theresa, Montreal; Townsend, Marjorie Madeleine, Westmount; Van Reet, Margot, Montreal, first class honors in French; Weston, Elizabeth Marcelin, Montreal, first class honors in English and second class honors in history; Whitmore, Jacqueline Marychurch, Montreal; Wilson, Brenda Becker, Montreal, second class honors in psychology and second class honors in sociology.

West, Chancellor's Gold Medal in Economics and certificate for distinction in general course; Stevenson, Richard Henry, Montreal; Stinson, Norman Copley, Ottawa, Ont.; Taylor, Norman Eldred, Montreal; Thompson, Mary Elaine, Westmount; Toller, John Fitzgerald, Montreal; *Williams, Roger Howard, New York.

Note—Mr. Kenna graduates with a certificate for great distinction in the general course, the F. W. Sharp Prize equal with Mr. Pappelbaum, and the Lieut.-Governor's Silver Medal.

Mr. Pappelbaum graduates with a certificate for distinction in the general course, the F. W. Sharp Prize equal with Mr. Kenna.

FACULTY OF GRADUATE STUDIES AND RESEARCH

Master of Science

Croll, Diane, B.Sc., M.D., Winnipeg, (experimental medicine); Enright, Martin Anthony, A.B. (Temple University), Simferopol, Crimea, (genetics-zoology); Graham, Walter Donald, B.S.A. (Toronto), Ottawa, (agricultural chemistry), in absentia; Henry, James Paget, M.A., M.B., B.Ch. (Cambridge), Epsom, Eng. (experimental medicine); Kennedy, John Edward, B.A. (Queen's), Kemptville, Ont. (physics); Kent, George Adrian, B.Sc. (Alberta), Millet, Alta. (chemistry), in absentia; Lajoie, J. G. Paul, B.A., L.S.A. (Montreal), Saint-Justine, Que., (agricultural chemistry); Leblond, David, B.A., B.S.A. (Laval), Quebec, (plant pathology); Lin, Shu-chang, B.Sc. (University of Nanking), Hunan, China, (zoology), in absentia; Livingston, Constance Aileen, B.Sc. (McGill), Montreal, (anatomy); MacLean, Alistair Joseph, B.Sc. (Agr.), (McGill), Riverside, N.B., (agronomy); MacLennan, Louise Isabel, B.Sc. (McGill), Montreal, (bacteriology); Mitchell, Mary Verity, B.Sc. (Columbia), Westmont, (Psychology); Robinson, Harold Ross, B.A. (Saskatchewan), Saskatoon, (geology), in absentia; Shuh, John Edward, B.S.A. (Toronto), Waterloo, Ont. (agronomy); Stern, Herbert, B.Sc. (McGill), Montreal, (botany-genetics).

Master of Engineering.
Chang, Lo-ching, B.S. in Chem. Eng. (National University of Chekiang), Kiangsu, China, (metallurgy), in absentia; Faucher, J. A. Roland, B.A.Sc. (Laval), Ste. F. Amille, Island of Orleans, Que., (mining); Yao, Yu-lin, B.S. in Chem. Eng. (National University of Chekiang), Kiangsu, China, (metallurgy), in absentia.

Master of Arts.
Bolger, Josephine Augusta, B.S. in Ed. (Boston), Fitchburg, Mass. (education); Erskine, John Stuart, B.A. (Acadia), Wolfville, N.S. (French language and literature), in absentia; Fry, Margaret Exie, A.B. (Wittenberg College), Hagers-town, Md. (English); Gagnon, Aurèle, B.A. (Montreal), Montreal, (psychology); Graham, Charles Ross, B.Sc. (Dalhousie), Kentville, N.S. (economics); Heller, Mildred, B.A. (McGill), Outremont, (English); Hollinger, Martin, B.A. (McGill), Outremont, (economics); Johnston, Charles Franklin, B.A. (McGill), Westmount, (French language and literature), in absentia; Koenig, Sister Mary Gregoire, A.B. (Notre Dame College), River Forest, Ill. (French language and literature), in absentia; Peck, Robert Alfred, B.A. (McGill), Montreal, (French language and literature); Ponticello, Eva Edith, A.B. (St. Lawrence College), Canastota, N.Y. (French language and literature), in absentia; Price, Frederick William, B.A. (McGill), Montreal, (education); Reisman, Sol, B.A. (McGill), Montreal, (economics); Ross, Sally Chipman, B.A. (Manitoba), Winnipeg, (English), in absentia; Rossiter, Maryellen, B.A. (McGill), Montreal, (French language and literature); Schiffrer, Tania, Bacheliers Philosophie (Paris), Paris, France, (French language and literature); Shane, Gerald S., B.A. (Sir George Williams College), Montreal, (psychology); Smith, Stanley Alfred, B.A. (McGill), Montreal, (classics); Solomon, David N., B.A. (McGill), Westmount, (sociology); Taylor, Margaret Ellen Bresse, B.A. (McGill), Montreal, (French language and literature); Williams, Ivor David, B.A. (McGill), Lachine, (philosophy), in absentia.

Doctor of Philosophy

Allenby, Owen Clement Wentworth, B.Sc. (McGill), M.A. (Toronto), St. Johns, Que. (chemistry); Arnell, John Carstairs, B.Sc., M.Sc. (Dalhousie), Bermuda, (chemistry); Black, James Murray, B.A.Sc., M.A.Sc. (British Columbia), Vancouver, (geology), in absentia; Blizzard, Ronald H., B.Sc. (Washington College), Cedarville, N.J. (chemistry), in absentia; Brails, Roger, B.A.Sc., C.E., Ch. E. (Ecole Polytechnique), Montreal, (chemistry); Briggs, Janet Bloch, B.A. (Oberlin College), Hillsdale, N.Y. (zoology); Davis, John, B.A.Sc. (British Columbia), B.Sc. (Oxford), Kamloups, B.C. (chemistry); Davis, Stuart George, B.Sc. in Chem. Eng. M.Sc. (Alberta), Lethbridge, Alta. (chemistry); Deans, Sidney Alfred Vindin, B.Sc. (McGill), Montreal, (chemistry); Dosne, Christiane, B.Sc. (McGill), Hawkesbury, Ont. (anatomy); Edwards, John Thomas, B.Sc. (McGill), Town of Mount Royal, (chemistry); Gillies, Archibald, B.Sc., M.Sc. (Alberta), Westlock, Alta. (chemistry); Hewson, William Bell, B.A. (Mount Allison),

Westlock, Alta. (chemistry); Hewson, William Bell, B.A. (Mount Allison),

Prominent McGill Grad Honored by Sportsmen

Dr. Fred J. Tees Selected as Guest By Sportsmen's Assoc.

Dr. Fred J. Tees, a prominent graduate of McGill and well-known in Montreal sports circles, will be the guest of honor of the Montreal Sportsmen's Association at their annual golf tournament at the Country Club of Montreal, St. Lambert, on St. Jean Baptiste Day, June 24. The unanimous selection of Dr. Tees was made at a recent meeting.

On June 24 Dr. Tees will receive all the customary honors, as well as the British Consuls Shield and a replica of this shield. It is expected that a record number of sportsmen will attend to participate in the tournament and to assist in honoring Dr. Tees.

For many years Dr. Tees has been associated with the athletic administration at the University. He is a graduate of Montreal High School and of McGill, graduating with first class honors in the class of Arts '01, and received his M.D. four years later.

Prior to the First World War, he was Medical Superintendent of the General Hospital. During the war he went overseas with the Ninth Ambulance Corps, in charge of surgery in the special Canadian Hospital at Buxton. Since his return in 1918, he has been carrying on his own practice here.

During his academic days, Dr. Tees was a member of the first McGill track team with the late Percy Molson and John D. Morrow in 1909. He was secretary of the McGill track meet, and was mainly responsible for bringing the first Oxford-Cambridge team to Canada, after touring which they met the Harvard and Yale athletes in a great track meet. For the last 40 years, in fact, Dr. Tees has held a responsible position with the McGill University Athletic Association.

Dr. Tees, incidentally, was the man chiefly responsible for bringing the warring factions in athletics together at Ottawa in 1911 when the Amateur Athletic Union of Canada was formed. He was offered the first presidency, which he declined, after which he nominated the first President of the new governing body, J. G. Merrick, of Toronto. In 1915, Dr. Tees was named to the presidents' chair, an honor which he held for several years. Dr. A. S. Lamb became secretary in 1922.

He was honorary medical adviser for many years for the old Victoria Hockey Club and has handled surgery cases for many of Montreal's greatest athletes. He is consulting surgeon for the Canadian Hockey Club, and at the present time both Elmer Lach and Tony Demers are under his care.

Dr. Tees is now attending surgeon to the Montreal General Hospital, a lecturer on surgery at McGill, and is a fellow of the Royal College of Surgeons in Canada. He served as School Commissioner for the City of Westmount and has been a member for some time of the Metropolitan Board of the Young Men's Christian Association. Dr. Tees has one daughter and one son. Miss Tees is a student at McGill and the son is attending Westmount School.

Sports Fill Out Life at Camp

Facilities Offered Cadets for Track Baseball, Basketball

Sports activities formed a definite and large part of the camp life of the Fifth Detachment of the McGill Reserve Training Battalion. A large and varied assortment of sports equipment was available to the sports-loving cadet after he had finished his daily allotment of military training as laid down by the syllabus.

Amongst the most popular of the sports was baseball. On a large field the McGill cadets could be seen any night following their beloved past-time. Several interesting matches were arranged, with A Company opposing B Company, and other such games.

Those who followed harrier and track were not inactive. A "Paper Chase" was arranged by the Sports Officer of the Camp. Eight McGill lads turned out to follow the trail of colored paper, soon wafted in all directions by a mischievous breeze. These runners displayed fine form in leading the pack along the trail; but were out of the money when several of the soldiers attached to the Camp, knowing the lie of the land, took a chance on cutting

across country and managing to guess right, caught the Hares unawares.

Several of the lads found ample facilities to display their talents in the art of basketball. They could be seen most nights either practising in the Drill Hall-Gymnasium or playing exhibition games against

(Continued on Page Eight.)

McGill Star Leads League

Holdredge Sinks Most Foul Throws In Loop League

In this year's final basketball scoring in the Montreal Basketball League's Big Five, Bert Holdredge of McGill led in foul throws all season with 22. Holdredge was also McGill's high scorer, coming fifth in the final list with an aggregate score of 78 points. Vernon was McGill's second highest scorer, with only one point less than Holdredge. Eddie "Busher" Jackson, high-scoring guard of Champion Oilers captured the League's scoring crown with 115 points. Records issued show that Jackson led, or shared the lead in four departments of the scoring records during the past season when he captured the Hannes Schneider Trophy.

Pat Griffin of Oilers missed the most foul throws, with 22, and Jake Weshler of Mount Royal received the most personal fouls, 30.

Van Wagner Returns to Basketball Presidency

Key to Cage Squabbles Is More Official Boards

For the tenth time F. M. Van Wagner of the Physical Education Department of McGill University has taken over the Presidency of the Province of Quebec Board of Approved Basketball Officials.

With a certain amount of ill-feeling still prevailing following the recent differences in the Canadian Senior cage final between Montreal Oilers and Victoria Dominions, Van talked over the refereeing situation as follows:

"Until the day when sponsors of the Dominion finals can bring in neutral referees for this senior series, I can't see how they will avoid differences," Van pointed out.

"I do not figure there is anything wrong with top officials that are used in any of the large centres," he went on. "I regard the Dominion senior men's final as an inter-sectional affair and wherever one of these games crop up, look out!"

"Though a Canadian invented basketball, the game is at its best in the United States," Van pointed out. "Don't think basketball in the U.S. on a nation-wide scale didn't experience any growing pains before what is regarded as a uniform interpretation of rules was reached. Until those inter-sectional basketball games were inaugurated at Madison Square Garden in New York, inter-sectional refereeing was a severe problem."

Uniform Rules

"They tossed the big-name college teams against one another in New York and only level-headed supervision kept that great annual basketball fiesta alive. When they first started to play, it was almost mayhem. No two referees from different sections of the country blew the same game. Teams were in confusion. But they weathered the storm, and out of those pioneer inter-sectional games came a uniform set of rules that were interpreted so consistently teams could travel anywhere and not run up against confusion in penalty calls."

Having coached McGill cagers for years and having taken them on many trips through the Eastern States, Van speaks from considerable experience. In late years, the improvement in interpretation is immense.

"Why, I can remember several years ago, going to Vermont with my McGill team and having an entirely different interpretation than we had been playing under in Canada," he recalled. "Then, when we moved over to New York, you'd have thought we were playing an entirely different game again."

"Things have improved greatly since then, but even so, we were liable to run into referees, rated highly at home, whom we wouldn't have liked to see handle our Cana-

McGill's War Effort Seen In Retrospect

Students Make Contributions in Various Fields

Immediately upon the outbreak of war, representatives of the National Conference of Canadian Universities met with representatives of the government in Ottawa in order to determine the extent to which university life would be affected by the war.

Foremost among its effects was the necessity for severe curtailment of intercollegiate athletics, since the men would be required to devote all their spare time over and above that needed for studies, to the military training. It was felt that all students should be prepared to make sacrifices to aid their country in war time and the first field in which the sacrifice was made was that of intercollegiate athletics, although local exhibition games were not considered incompatible with this ruling which prohibited competition with other senior members of the Athletic Union.

At McGill, however, by a resolution of the Students' Athletic Council and the advisory Athletic Board, intercollegiate activities were completely suspended for the duration and athletics are organized and carried on in connection with the Reserve Training Battalion on an inter-company basis, and this method has proved very successful and gives the fullest outlet possible for competitive sports in war time.

Another phase of campus life which received early attention was the social aspect. By means of the Students' Executive Council, the University administration made it clear that a curtailment of the number of social events would be very desirable. In addition the nature of the preparations was greatly simplified and even such important events as balls and proms were confined to campus buildings instead of being held at the larger hotels, as was customary.

Further resolutions of the Students' Executive Council decreed that no student dances be held outside the University, that there should be only three formal dances instead of seven, one Players' Club production instead of two, no Red and White Revue, and a definite reduction in the number of debates. Finally, a special Students' War Council was formed to promote further consideration of the war effort.

Not only have the students contributed in the ways just mentioned, but they have made actual contributions in the form of cash for various purposes. In the first year of their effort they raised money for the Wings for Britain Fund, the War Services, and Medical Aid to Greece. This past year they raised further sums for the Students' War Fund—a total sum of nearly three thousand seven hundred dollars.

Furthermore, they have assisted in various other ways covering a wide range of activities. These include participation in the Carry-On-Canada Program, registration as blood donors, and also for experimentation in the field of Endocrin-

ology, and last, but not least, the organization of three salvage drives, which netted some seventy truck-loads of material from various city districts.

Graduating Class Tendered Dinner

Mrs. Turner Is Guest Speaker

R.V.C. students feted their graduating members at the annual Senior Dinner, held in the Windsor Hotel, on May 9th. The guest speaker was Mrs. Turner, of the Fats Division of the Wartime Prices and Trades Board, who spoke on "University Women in Wartime."

Other guests at the Dinner who responded to toasts proposed by the undergraduates were Dr. Roscoe, Miss I. Munro, Judy Jaffe and Miss Wilson. The chairman was Gibson Beatty, President of third year.

Dorothy Murray presented the Valedictory for the graduating class, and Sue O'Reilly read the group's prophecy.

WILLIAM COLGATE

whose new book, Canadian Art: Its Rise and Development, is announced for early publication by the Ryerson Press, Toronto. Charles W. Jefferys, LL.D., R.C.A., O.S.A., contributes the introduction; Thoreau MacDonald has designed the format. The volume which is quite comprehensive in its scope, will be well illustrated, and contain a bibliography, a chronology and an index. A frontispiece in colours reproduces F. Horsman Varley's famous painting, Georgian Bay, now in the National Gallery at Ottawa. In brief, the book is to be a definitive history of the growth of the arts in Canada.

"Annual" Sales Break Record of Former Years

This year, the "Annual" made its appearance on the campus at a much earlier date than was the case in former years. Advanced sales had been so numerous as to warrant the ordering of many additional copies. Later over-the-counter sales had accounted for a all but 9 or 10 copies, making a total of

over 800 sales. The last few copies will be sold, the Board expects, before convocation is over.

The response of the students to "Old McGill '42 has been most favorable. A large number of novel features and the general lay-out of the book have tended to make it one of the most attractive and interesting Annuals yet produced, it is reported.

McGill University

Faculty of Arts and Science

French Summer School

June 26 — August 8

Language and Literature courses of undergraduate standing equivalent to Second, Third and Fourth Year French. Graduate courses for M.A. Students.

Inclusive fees for McGill undergraduates:

Tuition (5 or 6 courses a week) - - \$75

Residence (at Douglas Hall) - - \$90

Fee for a three-hour course taken as a partial course - - \$20

Intermediate and advanced courses are included in the Special Summer Session of the Faculty of Arts and Science.

Special Course in Military French

For further particulars, apply to the Secretary of the School, Arts Building, Room 52.

Graduation Gifts

CHOOSE YOUR GRADUATE A GIFT that can be cherished as a remembrance of this important event. We can illustrate but a few of our fine gift suggestions, so come in and see a large and comprehensive selection.

for HER

Flower Ring, 10kt. natural gold, with ruby centre 13.50 • Engraved natural gold Locket with neck chain, 10kt. 33.00 • Sterling silver Compact 7.50 • Flexible 9 kt. natural gold Bracelet 22.50 • Gilt metal evening Bag 10.00 • Crystal Photograph Frame, 10 x 12 in. 8.50

for HIM

BELGIANS REFUSE TO ASSIST GERMANS

Nazi-Dominated Newspapers Admit Growing Resistance by People

Resistance to the Nazi regime inside Belgium continues to increase according to admissions published reluctantly by the German-dominated newspapers of that country. Editorials and leading articles which have been featured in the press in occupied Belgium recently indicate that the people are more stubborn than ever before in their refusal to "co-operate."

Le Pays Reel, of Brussels, announces that Henri Pierre, a volunteer in Germany's army on the eastern front, who was cursed by his own mother when he left his home to enter that service, has thanks to Le Pays Reel—found a new mother. The latter is described as being "a real saint who, by her letters, tries to help him forget the crimes of his former parent."

The same newspaper, in another issue, admits that the people of the province of Hainaut have become so hostile towards the government-appointed quislings that they are "uneasy." Says Le Pays Reel in an interview with a Rexist leader of this district: "We have a governor, permanent Rexist deputies and even mayors, but it doesn't work."

The Nazi-controlled Volk en Staat carries a bitter attack on clergymen generally, and places particular stress upon Catholic "failures."

"In all other countries the clerical authorities have stressed the need for fighting against Bolshevism," the newspaper comments. "Only here have the Catholics formed another opinion. One would think they would prefer to be Bolsheviks rather than National Socialists from the way they are behaving and not only do some good-hearted people believe in the fanatical stories of the priests, but even in the Bishop's palaces there are still people clinging desperately to the old, degenerate, liberal democratic regime. They refuse to permit mass to be held for our comrades killed in the struggle against Bolshevism. The Bishop of Mechelen announces from his palace that the laws of the Church forbid it."

According to the Brusseler Zeitung, Charles Emile Desloover has been sentenced to five months' imprisonment for jeering at those who had died while fighting in the Flemish Legion on the Russian front.

Other complaints made by Belgium's "free press" include a number concerning that "utter failure of the recruiting campaign for men to go to Russia." Others draw attention to the domestic crisis in Belgium, economically, which is now causing trouble and unrest."

CONVOCATION 1942

TO YOU ALL

Congratulations on your past achievements and a welcome as you accept new responsibilities in a world yearning for sane leadership which you from your training should be able to offer.

List of 500 Graduates Passed for Convocation

(Continued from Page Four)

Johnson, Gerald Michael Francis — Sir William Dawson Research Fellowship in metallurgical engineering; honors in metallurgical engineering; Jenkins Brothers Limited Scholarship (June 1941).

Leonard, Hugh Anthony — The Engineering Undergraduates' Society's first prize for summer essay. Lewis, Robert Anthony Clyde — The Lieutenant-Governor's Bronze Medal in Architecture; The Louis Robertson Prize in Design. Mason, Vere Karsdale — British Association Medal; honors in civil engineering. Ouellette, Robert Pascal — The Robert Forsyth Prize in Theory of

Structures and Strength of Materials. Redlich, Gustav — Honors in chemical engineering. Reid, Robert Arthur — Honors in mechanical engineering. Rowe, Douglas George Wells — Dr. James Douglas Research Fellowship in mining engineering. Simpson, Francis William — Honors in electrical engineering; Montreal Light, Heat and Power Consolidated second prize.

Passed for the Degree of B.Arch. Lewis, Robert Anthony Clyde, Port of Spain, Trinidad, B.W.I. Passed for the Degree of B.Eng. in Chemical Engineering. (In order of merit.)

Cholette, Albert, Quebec; Redlich, Gustav, Toronto; Campbell, James Elliott, Montreal; Looker, Arthur John, Westmount; Tawse, Ronald Playford, Montreal; Papineau-Couture, Gilles, Montreal; Spivack, John Denon, Montreal; Dunbar, George Gray, St. Lawrence, N.S.; Bain, Frederick Archibald, Winnipeg.

Quinn, James Vincent, Montreal; Rogers, Frank Knox, Winnipeg; Beusch, George Joseph, St. Johns, Que.; Baxter, John Frederick, Saint John, N.B.; and Cohen, Mendel Crown, Montreal, equal; Wells, James Edwin, Montreal; Carlson, John McConnell, Boissevain, Man.; Killey, Robert Frank, Winnipeg; Row, Douglas Frederick, Beloit Station, Que.; Daly, Thomas Cyril, Outremont.

In Civil Engineering. (In order of merit.) Mason, Vere Karsdale, Bridge-town, N.S.; Fowler, Frank, Winnipeg, Man.; Ouellette, Robert Pascal, Montreal; McCulloch, Urban Francis, Montreal West; Hebert, Raymond John, Farnham, Que.; Griesbach, Robert Johnston, Hampstead, and Holland, Henry Alfred Nelson, Montreal West, equal; Brett, John Edward, Montreal.

In Electrical Engineering. (In order of merit.) Davis, John Frederick, Montreal; Simpson, Francis William, Montreal; Ward, Walter George, Peterborough, Ont. (in absentia); Grant,

Frank Alexander, Lachine (in absentia); Martin, William Sturmont, Montreal (in absentia); Illiffe, Francis Henry, Montreal West; Simpson, William Tyrie, Montreal (in absentia); Bennett, John Robert Gordon, Montreal West; Kennedy, Robert William, Montreal; Webster, John Alexander, Town of Mount Royal. Gladwell, Roy Leonard, Valois, Que.; Shaw, Douglas Thomas, Montreal; Quart, Reggie Dinan, Quebec (in absentia); Chauvin, Ernest Cousins, Outremont, and Wilson, John Howard, Hudson Heights, Que., equal; Stopps, Reginald Edward, Cochrane, Ont.; Lindsay, Gerald Alec Edwin, Westmount; Hudson, George Waugh, Montreal; Bowie, Ralph Allen, Lachine.

In Mechanical Engineering. (In order of merit.) Isakson, Gabriel, Montreal; Findlay, Allan Cameron, Westmount; Reid, Robert Arthur, Outremont; Glen, Alec, Town of Mount Royal (in absentia); Grashy, Robert Leigh, Winnipeg; Anderson, John McDonald, Ottawa; Stapells, Robert Fredric, Montreal; Wilson, William Henry, Farnham, Que.; Leonard, Hugh Anthony, Montreal (in absentia), and Routly, William James, Montreal West, equal.

Hunter, Douglas David, Lachine, and Meagher, George Vincent Joseph, Halifax, equal; Richardson, George William, Montreal; Marshall, Harry Simpson, Montreal (in absentia); Storey, Donald Robert, Montreal; Griffin, Vincent Oswald, Brighton, Ont.; Anglin, Thomas Gill, Westmount, and Norton, Howard William, Montreal, equal.

Dellis, John Benjamin, San Pedro de Macoris, Dominican Rep.; McKenna, Lawrence Nettson, Buffalo; Bogert, Frank Godard, Pointe Claire; Retallack, Norman Frederick, Montreal; Collins, James Benson, Vancouver; Harkness, Andrew Dunbar, Lancaster, Ont.; Gaucher, Jules, Montreal (in absentia); Wiggett, John Montague, Sherbrooke; Chapman, Harris James Wesley, Sackville, N.S.; Patch, Peter Ramsay, Westmount (in absentia), unranked.

In Metallurgical Engineering. (In order of merit.) Johnson, Gerald Michael Francis, Westmount; Holden, William Russell, Sherbrooke; Easton, Edmund Leonard, Town of Mount Royal; Palmer, Forrest McDowell, Montreal; Warren, Mare, Montreal; Wong, Edward Shang, Montreal.

In Mining Engineering. (In order of merit.) Rowe, Douglas George Wells, Sherbrooke, Que. (in absentia); Macdonald, George Hamilton, Newcastle, N.B. (in absentia); Graham, Frederick Francis, Calgary; Deschenes, Fernand Myville, Sayabec, Que.; George, Jack Gregory, Montreal; Cameron, Edward Lee, Halifax, and Ergunalp, Fallh, Bursa, Turkey, equal; Haviland, David Jr., Maplewood, N.J.; Cantwell, Edward Marcel, Outremont; Zahalan, Richard George, Outremont; Alvarez-Calderon, Guillermo, Lima, Peru; Stenning, George, Lima, Peru; Taylor, William Leonard Wyndham, Westmount (in absentia), unranked.

FACULTY OF LAW Passed for Degree of B.C.L. Clarke, Brock F., Montreal, first class honors and Elizabeth Torrance Gold Medal; Clarke, George Foster, Town of Mount Royal; Gadois, Albert O., Montreal; Kirkpatrick, John G., Westmount, second class honors and Montreal Bar Association Prize in Commercial Law; Martin, Jack Edward, Westmount; McDougall, Laurence G., Montreal; Mills, Alan V. L., Montreal; Moscovitch, Moses, Montreal, second class honors; Norrish, William E., Westmount; Rivett, Ronald Albert, Noranda, Que.; Salmonovitz, Melvin, Montreal, second class honors; Seton, Leonard Arthur, Montreal West, second class honors, Edwin Beisford Bustead Scholarship, Junior Bar Association prize in Civil Procedure, and Legal Research Prize.

FACULTY OF DENTISTRY. Passed for Degree of D.D.S. Cano, Marco Balerio, B.S., Montpelier, Vt., the Lieutenant-Governor's Silver Medal, and a prize in books, awarded for second rank standing in the final year; Danforth, Albert Leroy, Watertown, N.Y.; Hibbard, John Eric, B.A., Sherbrooke; Pye, Albert Edward, B.Sc., Montreal, prize of the College of Dental Surgeons of the Province of Quebec, awarded to the student registered in this province, obtaining the highest standing in the practical examinations of the final year; Rauch, Joseph, B.A., Montreal; Redka, Henry Robert, Mount Vernon, N.Y., the Montreal Dental Club Gold Medal, and a prize in books, awarded for the highest aggregate in the final year.

FACULTY OF MUSIC. Bachelor of Music — Eaton, Richard S., Toronto. Licentiate in Music (Class B Performer) — Angus, Elizabeth (Pianoforte), Victoria, B.C.; Goodwin, Barbara (Pianoforte), Ste. Anne de Bellevue; Postner, Alice (Pianoforte), Montreal; Rosemarin, Samson (Violin), Montreal; Rutledge, Edythe (Pianoforte), Montreal West.

FACULTY OF AGRICULTURE (Macdonald College) Passed for Degree of B.Sc. (Agr.) Archibald, Perry Alexander Howard (in absentia); Glenelg, N.S., second class honors; Campbell, Douglas Kennedy, Shawville, Que.; Cunningham, Kenneth Harley, Hemmingford, Que.; Currie, William Albert, Galt, Ont.; Foote, Frank Perry (in absentia), Lakeville, N.S.,

second class honors; Hayter, Ralph Robert, Huntingdon, Que., second class honors; Henderson, Douglas George, Montreal, second class honors; Jenkins, William Angus (in absentia), Truro, N.S., second class honors; Kitchener, Eleanor Elizabeth Madge, Bermuda, B.W.I., second class honors; Lusens, Charles Victor, Lausanne, Switzerland, second class honors; MacAllister, Colin Ross, Lennoxville; McCue, Ian B. (in absentia), Outremont, second class honors; McCutcheon, Wilfrid Whyte, Lemsuer, Que.; McDonald, Alexander William, Dalhousie Station, Que., second class honors; Macmillan, Donald James, Inverness, Que.; Malevitch, Alexander, Montreal; Mendell, Jon Joseph, Montreal, second class honors; Milligan, John Edgar (in absentia), Truro, N.S., second class honors; Newson, Freeman Oswald, Kingston, P.E.I., second class honors; Roberts, James Arnold, Truro, N.S., first class honors; Rockwell, Keith Redden (in absentia), Truro, N.S., second class honors; Sevigay, Treffe, Gerald, Montreal; Woolaver, Allison Stewart, Blomidon, N.S., second class honors.

SCHOOL OF HOUSEHOLD SCIENCE. (Macdonald College.) Passed for degree of B.H.S. Bennett, Hazel Winnifred, Ste. Anne de Bellevue, second class honors and the Food Conservation Prize; Bracher, Winnifred Jean, New Westminster, B.C., second class honors; Cherry, Barbara Elizabeth, Ottawa; Chestnut, Helen Turnbull (in absentia); Gander, M.D.; Davidson, Marion Patricia, Swift Current, Sask.; Douglas, Isabel Margaret, Shawinigan Falls; Ferguson, Mary Alice, Prescott, Ont. Hogle, Dorothy Jeanne, Montreal, second class honors; Jackson, Ruth Amelia, Ville LaSalle, second class honors; Macfarlane, Mary Esther, Ottawa; Miller, Suzanne Goldthwaite, Saint John, N.B.; Montgomery, Jean McNeice, Lennoxville; Moodie, Mrs. Shirley, Ottawa. Owen, Jean Nancy, Montreal; Parker, Anne Louise, Montreal, second class honors; Peck, Jean Lockhart, Ste. Anne de Bellevue; Robinson, Marion Marguerite, Banff, Alta., second class honors. Slack, Janet Ellis, Waterloo, Que., second class honors; Whitman, Mary Brishin, St. Valentine, Que.

LIBRARY SCHOOL. Passed for degree of B.L.S. Cawson, Mary Eileen, B.A., Winnipeg, McGill University Library School Prize for highest average during the year; Cummings, Helen Howard, B.A., St. Lawrence, N.S.; Macdonald, Helen Louise, B.A., Valois, Que.; Marrotte, Enid Madeline, B.A., Montreal West; Swanton, Edith, M.A., Washington, D.C. SCHOOL OF PHYSICAL EDUCATION. Prize Winners. Johnston, Eileen V., Gold Medal for highest general proficiency; Carmichael, Mary Isobel, Class of 1925 Shield for highest standing in practice teaching; Nassif, Gladys, Lieutenant-Governor's Silver Medal for highest standing in theory; Farquharson, Sheila Myrtle, Class of 1926 Cup for highest standing in practical work.

Passed for Phys. Ed. diploma. Burgess, Norma Constance, Montreal, (with distinction); Carmichael, Mary Isobel, Montreal, (with distinction); Farquharson, Sheila Myrtle, Jamaica, B.W.I.; Harris, Marguerite Wilda, St. Laurent, Que.; Johnston, Eileen V., Montreal, (with distinction); Nassif, Gladys, Three Rivers; Rabinovitch, Lillian, B.A., Westmount; Spencer, Muriel Jeal, Montreal. Higher Diploma — Orlick, Emanuel, M.A., Montreal.

SCHOOL FOR GRADUATE NURSES. Certificate in Administration in Hospitals and Schools of Nursing — Kemp, Edith Davis, Camrose, Alta.; Palliser, Elinor M., Montreal. Certificate in Teaching and Supervision in Schools of Nursing — Archer, Lillian Evelyn, Rivers, Man.; Campbell, Margaret J., Springhill, N.S.; Carson, Margot P., Hampstead; Fife, Lillian M. (in absentia); Jiggins, N.S.; Leak, Helen D., Toronto; Meyer, Irene M., Edmonton; Naylor, Lauretta B., St. Martins, N.B.; Relserson, Betsy Colia, Shaunavon, Sask.; Street, Margaret M., Vancouver; Thomson, E. Elizabeth, Portage La Prairie; Walters, Julia K., Vancouver; Weatherhead, Katherine M., Winnipeg.

Certificate in Public Health Nursing — Anderson, Christine P., Edmonton; Cassidy, Ella M., Pembroke, Ont.; Dick, Dorothy M., Winnipeg; Fraser, Eleanor Sophia, Hopewell, N.S.; Lea, Elizabeth R., Edmonton; Lusted, Hester J., Regina; Lyser, Elizabeth, Montreal; MacKenzie, Lillian G., Winnipeg; MacKenzie, J. Ray, Welsford, N.B.; Methuen, Nancie J., Edmonton; Parent, Jeanette, Sedley, Sask.; Paris, Christine, Deschallons, Que.; Reid, Bertha, Milltown, N.B.; Ross, Catherine M., Regina; Ross, Margaret P., Black River Bridge, N.B.; Trueman, Margaret, Montreal; Wilson, Mary Emily, Winnipeg; Winchester, Frances L., Cambridge Station, N.S.; Woodburn, Gweneth, Montreal West.

Students Lack Living Space (Continued from Page One.) with McGill authorities to obtain the use of a suitable house. The

problem of obtaining furniture will tax the resources of the new syndicate; but it is hoped that this problem will be solved soon. A co-op has been operating successfully at the University of British Columbia for the past two years; while a co-operative house at the University of Alberta has just completed its first year successfully. In four years the co-operative residence at the University

of Toronto has expanded from a small venture to its present strength of two houses accommodating eighty students. The students at Toronto were fortunate in obtaining a large building from the university authorities at a nominal rent. Queen's University students have also started a co-operative residence, which now at the end of its first year of operation shows a successful record. The members

plan to expand the venture to include two houses next session. At Queen's as at Toronto the co-operative enterprise received some outside financial assistance from interested persons. Ireland's marked humidity is seen on the vegetation, notably the grass, which remains constantly green and has earned for Ireland the name of the Emerald Isle.

THE MONTREAL
CITY & DISTRICT
SAVINGS BANK

Established in 1846

Safety Deposit Boxes at all Our Offices

BRANCHES IN ALL PARTS OF THE CITY

Serving Canada today...
planning for tomorrow!

Through \$34,000,000 invested by The Mutual Life of Canada in Dominion War Loans, plus many additional millions in other Government securities and vital industries, more than 170,000 Mutual Life policyholders are giving added support to Canada's war effort.

Their insurance dollars perform a double task: providing the sinews of war and safeguarding the security of Canadian families.

Employees of The Mutual Life of Canada also are doing their share. More than 150 enlisted for active service. Hundreds more are engaged in war services, assisting

with war savings drives and buying War Savings Certificates or Victory Bonds.

Today we must all spend less and save more. Together with your regular war savings, no investment can be more helpful to you or to Canada than the purchase of a Mutual Life of Canada policy. Policyholders are the sole owners of the Company and sole recipients of its profits.

Your nearest Mutual Life representative will gladly help you with an individual plan to protect your family and make your savings work for Victory. See him today!

ALL PROFITS FOR POLICYHOLDERS

Moffat to Address Graduates

(Continued from Page One.)

Health in 1935. Two years ago, he was named Minister of National Defence for Air. Previous to this appointment, he was Postmaster General for several months, a post which he vacated on becoming Air Minister.

William Massey Birks, merchant and manufacturer has been a governor of McGill since June, 1910. As a student at McGill in 1886, he studied geology and mineralogy.

He has served in many capacities in the field of national and international service. He is a former president of the Board of Trade and of the Canadian Chamber of Commerce, and is now Vice-president of the Federation of the Chambers of Commerce of the British Empire.

Chairman of Henry Birks & Sons, Ltd., his interests have ranged far from that of business. He has been a chairman of many Montreal patriotic funds, including Red Cross and Military Y.M.C.A. funds in the Great War. He has taken a keen interest in international affairs, and served as President of the Royal Empire Society, of the Overseas League. He was also vice-chairman of the Canadian delegation to the Pacific Relations Conference at Kyoto, Japan, again in 1929 when that body met in China, and a third time when it met in Banff in 1933. He is president of the Canadian Institute of International Affairs and honorary president of the Montreal branch. He is also former president of the Association of Canadian Clubs. He has taken a keen interest in education and is now serving as a member of the Montreal Protestant Central Board.

Dr. A. H. Gordon is a brilliant graduate of the university. He obtained his M.D. in 1899, and was Holmes Gold Medalist, winning the highest aggregate marks in the subjects of the four year course. He was appointed a demonstrator in the department of physiology, and later became lecturer in the subject. He then joined the department of medicine as an assistant demonstrator in the department of medicine.

Concurrently, he was on the staff of the Montreal General Hospital. At the time of his retirement from teaching and hospital staff duties three years ago, he was Professor of Medicine at the university and senior physician at the General Hospital.

He was a charter member, and later vice-president of the Royal College of Physicians and Surgeons of Canada. In 1940, he was elected president of the American Clinical and Climatological Association. He is also a member of the Council of the Association of American Physicians.

He is a member of the Canadian Medical Association and of the Montreal Medico-Chirurgical Society. Acadia University has honored him with a degree of LL.D.

Hostels Plan Summer Tours

(Continued from Page One)

days through the Muskoka district to Orillia, then on to Peterborough, by train to Ottawa, and back to Montreal by bike.

The third annual French tour of the Eastern Townships will be sponsored from July 4th to July 18th; and is designed for less experienced cyclists wishing to learn.

From June 27th to July 11th, a regular sponsored tour will be led through the Eastern Townships for two weeks of cycling.

It has been pointed out by the Hostelling Committee that hostelling this year is an inexpensive as well as patriotic way of spending the holidays, since biking does not involve the use of gas.

Further information may be obtained from Fred L. Denton, Commerce '36, or by writing to the Quebec regional Secretary, Ruth Denton, at P.O. Box 284, Place d'Armes.

Sports Fill Out
Life at Camp

(Continued from Page Five)

Sir George Williams and other teams.

The gymnasts indulged in all manner of tumblings and other forms which their art might take. In a small room up in the tower of the barracks, they were free to carry on their training unimpeded.

Last, but not least, were the daily sessions of P.T. It was generally admitted by all the cadets that these periods were pretty soft, and nothing at all compared to similar sessions in the Armoury. It may well have been that the vigorous outdoor life made them immune to any tendencies to fatigue.

PLANTS GROW IN WATER

British Experiment to Boost
Yield With Chemicals

London.—To increase the war supply of fresh vegetables, people in Britain are trying out hydroponics, or the science of growing plants in water containing chemical food.

Several experiments have been

carried out by British scientists with various systems of water culture. One method is to suspend the plants in a wire tray over a tank containing the nutrient solution, into which the roots drop. In other systems which have yielded good results plants are grown in sand, gravel or clean cinders to which the nutrient solution is applied.

The simplest method of all is the "hand-watering" system, which requires no special equipment. All that is needed is a barrel for the nutrient solution, administered by an ordinary water-can in measured doses to plants grown in purchased sand in pots or well-drained beds. Numerous experiments both outdoors and under glass have been made with this method, and with the right technique no difficulty has been found in getting from 8 to 10 pounds of tomatoes per plant. Equally satisfactory yields of carrots, turnips, potatoes, lettuce and other crops have been obtained.

It is not simple enough to supply the right amount of plant food, and any intelligent gardener can prepare nutrient solutions either from pure chemicals or from fertilizers and high-grade commercial salts, provided he keeps exactly to the quantities specified for each mixture.

NEW U.K. METHOD
TELLS CHICKS' SEXSelf-Sexing Breeds Evolved
Which Are Held 100 Per
Cent. Accurate

New breeds of fowls which proclaim their sex at hatching by the color of their plumage are, as they become generally adopted, saving many tons of Britain's precious animal feeding stuffs. For this is the only 100 per cent. accurate method by which cockerels of a pure breed can be detected and killed off at hatching, leaving the available feeding stuffs for the more valuable egg-producing pullets.

"Sex-linking" of different breeds, to give cockerel chicks the color of the hen and pullet chicks that of the cock, has been practised for many years, but the disadvantage is that pure breeds have always to be used, for re-crossing destroys the color difference. Another method of determining the sex of the newly hatched chick is the old method of examining the papilla on the vent, but even in the most skilful hands, which may prove rather costly, only 95 per cent accuracy is obtained; moreover, the fragile chick is liable to suffer damage through clumsy handling.

But the new self-sexing breeds evolved at the Cambridge School of Agriculture as the result of studying the barring on the feathers of poultry, now fix the color differences permanently, and any backyard can go on breeding indefinitely with them, telling at a glance which of his chicks are pullets and which cockerels.

Breeds so far evolved are the Cambar (from the Campin and Barred Rock), Dorbar (Dorking-barred), Brussbar (Brown Sussex-barred) and Buffbar. These breeds are already developed to a commercial egg-laying standard and it now remains for British breeders to devote to them the selective breeding skill they have used with such success on other popular varieties like Rhode Island Reds, White and Black Leghorns, White Wyandottes and so on.

One of the latest developments of the science of genetics, sex-linked heredity was originally observed in such human defects as colour blindness and haemophilia (or "bleeding"), in which although only males were affected, many of the females of a family were able to transmit the defect to their sons but not to their daughters.

POWDER EMPLOYED
TO BRAKE PLANESMetal Alloy Enables Parts to
Stand Up Under 900 De-
grees F. Temperature

Brakes of bombing and fighting aircraft, which have to be tougher than any others, are being made in Britain from metal powders.

This process, a comparatively recent development in metallurgy originally discovered by an Englishman, enables the bronze friction plates for the disc-like brakes, with which many planes are now provided, to stand up to the tremendous friction involved in bringing to a standstill a mass of some 40,000 lbs. travelling at a velocity of 100 miles an hour, when in a moment or so the brake assembly may well reach a temperature of about 900 deg. Fahr.

Motorists know how easy it is to burn their brake linings under conditions much less strenuous than these; while on other forms of surface transport, such as trains, there are many wheels to each of which brakes can be applied simultaneously. But the aeroplane, as at present designed, has only two wheels to which brake assemblies can be attached. In the case of a bomber, the brakes on each wheel have to kill about 6,000,000 foot-pounds of energy in a few seconds.

Odd though it may seem that metal powders can provide materials capable of standing up to such conditions, they do so. The process is produced by mixing proportions of the component metals in fine powder form, which are then pressed into powder hydraulic presses into the desired shape and size. The slabs thus produced are now passed into furnaces where the heat is so controlled that the mass is sintered, that is, the low melting point component metals and alloys with the high melting point component.

The heat treatment is such that as perfect an alloy is formed as if the part had been produced from cast metal; moreover, the use of powders gives infinitely greater control over the properties of the resulting metal part and allows it to be bonded direct on to steel backing. This reinforces the strength of the part and the whole assembly is capable of standing up to the tremendous strains involved in bringing a heavy aeroplane quickly and safely to rest.

EATON'S...STORE HOURS: 10.00 a.m. to 6.30 p.m.

TELEPHONE ORDER SERVICE OPEN 9.00 A.M. TO 6.30 P.M. PLateau 9211.

Hats Off!

To the Class of '42

And three cheers for EATON'S gifts to honour the graduates. Last minute choosing is no problem at EATON'S where you've your choice from dozens of ideas, each one 'just what the graduate wanted!' We know that those we've chosen are 'at the head of the class,' slated 'most likely to succeed' with today's discriminating men and women. But these only skim the surface of miles of aisles packed with gift suggestions... come and take your pick!

For HER...

GRADUATION 'TIME'!

A. Dainty watches of EATON'S own SOLAR make. The one... a 15-jewel movement in a 14 kt. yellow gold case, fitted with a sturdy cord, 12.50. The other, 17-jewel Solar movement in a 14 kt. yellow gold case... wonderfully small, wonderfully efficient. 30.00

Watches, Main Floor.

GILD THE LILY...

B. With some really good-looking jewellery that she'll wear and keep. Cut sterling silver bracelet, especially appreciated when engraved with the momentous date... May 27, 1942. 5.00. Or Lily-of-the-Valley spray, enamelled gold-colour, with brilliant dew drops, 2.00

Jewellery, Main Floor.

MAKE UP TO HER...

C. With a handsome Richard Hudnut compact. She'll appreciate the handy large mirror and the recesses for rouge and powder. Note especially the large size lipstick that fits right in! Room for engraved initials, too, 5.00

Toiletries, Main Floor.

For HIM...

THE GIFT OF 'TIME'!

D. From EATON'S wide assortment we choose a good-looking "Mido" waterproof with excellent Swiss movement, 39.95, and a "Solar" chromium-plated stainless steel back watch on natural leather strap, 12.50

Watches, Main Floor.

"WRITE" YOU ARE...

E. Every Man needs a pen and pencil set. Give him a really good one that will last for years... like this Maxima Parker pen and pencil set... he'll still like it best when he's a big executive! 15.00

Stationery, Main Floor.

"SERVICE" ABLE GIFTS

F. This year he'll probably step right into the Army, Navy or Air Force. EATON'S has plenty of Service gifts. For instance, this leather writing kit with plenty of room for his etceteras. As sketched in air force blue, 4.50

Notions, Main Floor.
